

To: Atlantis Solar
From: Felix Fermin
Date: September 22, 2008

I am writing this letter to you as a testimonial of how impressed we have been with your products. We have been testing the Atlantis Solar air-conditioning system now for over six months in the Dominican Republic and we are very happy to report that it has exceeded our expectations. During this time we have been continually running and testing the units, and we have discovered an **energy savings of more than 65% compared to conventional systems** of the same cooling capacity.

Based on these findings and the quality of the units, we have begun to order product and will immediately be moving forward with plans to widely market and distribute these products in the Dominican Republic. We look forward to doing business with Atlantis Solar for a long time.

Please feel free to contact me with any questions or comments, I remain at your service.

Kind regards,

Felix Fermin
